Egypt, Cairo | (+20) 1033088054 | mohamed202029999@gmail.com | [LinkedIn](#) | [GitHub](#)

Summary:

Software Engineer with hands-on experience building scalable web applications using Node.js, Express, and MongoDB, along with modern frontend frameworks such as React and Next.js. Skilled in designing robust backend architectures, crafting RESTful and GraphQL APIs, and managing complex frontend/backend integrations. I am adept at writing clean, maintainable code across HTML, CSS, JavaScript, and TypeScript, and building responsive user interfaces using Bootstrap and Tailwind CSS to deliver reliable, high-performance solutions. Recently contributed to full-stack projects focused on scalability, performance, and seamless user experience.

Education:

Bachelor's degree in science, Al-Azhar University

Sep 2017 – Jul 2022

Experience:

Software Engineer, Full-Time | CareComm

Jul 2025 - Present

- Built and scaled microservices architecture using Node.js, and FastAPI, powering a dashboard that automates website creation and social media management for marketing clients.
- Designed and maintained GraphQL APIs to unify data access across multiple internal services and third-party platforms, improving integration efficiency and API response times.
- Automated end-to-end social media workflows, including post scheduling, publishing, and analytics aggregation across platforms like Facebook, Instagram, X and TikTok, boosting marketing team productivity and data accuracy.

Full Stack Developer, Freelance | Remote

Dec 2024 – Present

- Built and maintained full-stack web applications using Next.js, React and Node.js.
- Developed RESTful APIs and backend services with Django and Express, integrated with MongoDB.
- Managed deployments using Docker, version control with Git, and CI/CD pipelines.

Skills:

- **Technical Skills**
 - **Frontend:** React, Next.js, Typescript, Tailwind CSS, Bootstrap, jQuery, JavaScript, Html, CSS, Git, GitHub.
 - **Backend:** Node.js, Express.js.
 - **Databases:** MongoDB.
 - **Other:** Postman, Git, GitHub.
- **Interpersonal Skills**
 - communication and interpersonal abilities.
 - Open To Learn.
 - Strong problem-solving and analytical skills.
 - Adaptability and quick learning.

Projects:

Republic Burger – Web Application (Food Ordering System) [GitHub Backend](#) | [Live Demo](#) | [GitHub Frontend](#)

- Built a full-featured web application with user authentication, project showcase, and rating functionality using Node.js.
- Designed and integrated a MongoDB database, implemented RESTful API endpoints, integrated Stripe for payment processing and served static files using Express for production-ready deployment.
- Developed a responsive frontend using Next.js with tailwind CSS integration for UI.

Buy Ecommerce – Full-Featured E-commerce Platform [GitHub Link](#) | [Live Demo](#)

- Built a responsive e-commerce frontend using React, Vite, and TailwindCSS.
- Integrated with backend APIs for dynamic product browsing and data handling.
- Implemented routing, forms, image galleries, carousels, and notifications for a smooth user experience.

Portfolio - Personal Portfolio Showcasing Projects and Skills [GitHub Link](#) | [Live Demo](#)

- Making great portfolio that have my skills and my projects.
- Developed a responsive frontend using Next.js, Gsap animation, typeScript and tailwindCss.

Certifications:

Frontend Professional Diploma - Route [Certification](#)

- HTML, CSS, JavaScript, Bootstrap, and jQuery .
- TailwindCSS and TypeScript.
- Modern frameworks and libraries like React and Next.js.

Backend Diploma - Jonas Schmetmann (Udemy)

- Master Node by building a real-world RESTful API and web app with authentication, security, and payments.
- Gain hands-on experience integrating backend features and creating production-ready applications.
